

STAY ON THE SAFE SIDE

Stay on the Safe Side of Medical Marijuana

Stay on the safe side. Don't drive under the influence.

Stay on the safe side. Keep your medicine under lock and key.

Proper storage and use of medical marijuana products is essential to ensure the safety of others.

Use It Responsibly, Store It Responsibly

Medical marijuana patients are responsible for the safe usage and handling of their medication. Mishandling medical marijuana can have serious consequences – including car accidents and stolen medication.

In the State of Michigan, medical marijuana is legal for adults over age 18.

According to a report published in 2020 by the University of Michigan:

- Young adults ages 18-25 are the age group with the highest percentage of cannabis use
- Cannabis trends are higher in Michigan than the rest of the Midwest and the U.S. – these increases correlate with the legalization of medical marijuana in 2008
- 3% of the population in Michigan uses medical marijuana
- More than 43,000 people are registered as caregivers to provide medical marijuana for qualified patients

Let's Work Together to Promote Safe Medical Marijuana Use

Use this toolkit to promote the safe handling and storage of medical marijuana.

What's in the toolkit:

-  Medical marijuana overview, including what conditions are approved for patient use
-  Safe storage checklist and overview
-  Safe driving tips

Stay on the safe side when handling and using medical marijuana. Don't let medical marijuana get into the wrong hands – and never drive after use.

DID YOU KNOW?

21%

of medical marijuana patients surveyed admitted driving while “very high.”¹

Driving under the influence leads to accidents and even death.

Do not drive under the influence of medical marijuana.
