RE: **Bay County Health Department Gears Up For 2012-2013 Hearing & Vision Program**  
RUN: Immediate Release

Bay County Health Department staff is gearing up for another school year to provide **free** hearing and vision screenings to students in Bay County schools. Thousands of students will again receive the services of certified technicians at their schools.

Last year 7,600 students had their vision screened in 1<sup>st</sup>, 3<sup>rd</sup>, 5<sup>th</sup>, 7<sup>th</sup>, 9<sup>th</sup> grades and Special Education Classes. Approximately ten percent of those screened were referred to an eye doctor for further evaluation. Over 4,500 students were also screened in the hearing program with about five percent referred for medical attention from grades Kindergarten, 2<sup>nd</sup>, 4<sup>th</sup>, and Special Education.

Free hearing clinics are also sponsored by the Bay County Health Department with area Otolologists participating in the program. In the spring, technicians will begin pre-school and pre-kindergarten screening programs at district roundups, schools, and preschools. Schedules will be available in early spring. Approximately 2,000 children will participate in this program. Home schooled children can contact the Health Department at (989) 895-2045 to schedule their **free** hearing and vision screening.

**Parents who do not wish to have their child participate in these screenings should notify the school.**
