

## **Bay County Voluntary Employees' Beneficiary Association (VEBA)**

### **SUMMARY ANNUAL REPORT TO MEMBERS DECEMBER 31, 2011**

Dear VEBA Plan Member:

The Voluntary Employees' Beneficiary Association, which is managed by the VEBA Board of Trustees, is designed to provide medical benefits to you, your spouse, and covered dependents once you retire, become disabled, or upon your death. *The County also supports a pension plan which is separate from the VEBA.*

The VEBA Board's fiduciary responsibility to you is to supervise the general administration of Bay County's Retiree Health Benefit Plan (Plan) and invest the Plan's assets. Our Board retains professional advisors to assist us in fulfilling these duties.

We have prepared this summary report to give you a brief review of the VEBA and how it operates. We hope you will find it useful and informative. However, a summary report cannot cover all the details of the VEBA, which is governed by the provisions of the Retiree Health Benefit Plan and the VEBA's Trust Document. Additional information about the VEBA including the Plan, Trust Document and the actuarial valuation is available in the Finance Office or can be accessed via the County's website.

Respectfully submitted,

*Board of Trustees  
Bay County VEBA*

## SUMMARY RESULTS OF ACTUARIAL VALUATION

The VEBA's financial objective is to accumulate amounts to pay all or some of the benefits promised. This objective will only be met if the County contributes the amounts recommended by the actuary.

The Board of Trustees of the Bay County Voluntary Employees' Beneficiary Association provides for the payment of the employer contributions as described in the Bay County Board of Commissioners Resolution No. 2001-242.

To determine an appropriate employer contribution level for the ensuing year and to gauge how the VEBA's funding is meeting this fundamental objective, an independent firm of actuaries and employee benefit consultants, Gabriel, Roeder, Smith & Company, conducts biennial actuarial valuations.

These valuations are based on the VEBA's past experience, information about current participation and financial markets, and assumptions concerning the VEBA's future demographic and economic activity. The results of the December 31, 2011 valuation regarding active and retired employees, based on the established funding objective, are summarized below:

<b>Annual Required Contributions (ARC) for Fiscal Years Beginning January 1, 2012 And January 1, 2013</b>

### Actuary's Opinion

It is the actuary's opinion that the contribution amounts recommended in the most recent actuarial report are sufficient to meet the system's financial objective, assuming the employer contributes those amounts to the VEBA. Gabriel, Roeder, Smith & Company is not responsible for any contributions not made to the VEBA. The funding of the VEBA is the responsibility of the employers.
