

Greetings All,

I wanted to bring to your attention a "scam" that is going around using Department on Aging's old name.

We had a client call us yesterday that received a call from a restricted number stating that they were from "Division on Aging" and asked if they received a letter in the mail because they won a prize.

Please be reassured that at no time does Department on Aging give out anyone's personal information, would use the old name "Division on Aging" or say that that they won a prize.

This is a scam so please hang up on the caller.

Thank you,

Beth Eurich

Department on Aging Director
